## A MESSAGE FROM DR. MORGAN:

We see communities with inequitable living conditions, such as low-income communities of color living in more polluted areas, facing climate change impacts that compound and exacerbate existing vulnerabilities, particularly in the state of Florida.

Climate change-related health impacts can include increased number of cases of heat-related illness and death, more air pollution-related exacerbations of cardiovascular and respiratory diseases, increased injury and loss of life due to severe storms and flooding, increased occurrences of vector-borne and water-borne diseases, and stress and mental trauma from loss of livelihoods, property loss, and displacement.

At the Cobb/NMA Health Institute, we believe that fair and healthy climate action requires addressing the inequities that create and intensify community vulnerabilities, through strategically improving living conditions for and with people facing disadvantage. We need to come together in actions that affect both health outcomes and vulnerability to climate change impacts.

The good news is that addressing climate change represents a significant opportunity to improve public health and advance health equity. Many actions that limit climate change also improve the health of families and communities and reduce health inequities. The time to act is now. Please join us.

**Randall Morgan, Jr., M.D., M.B.A.**

Executive Director of the Cobb/NMA Health Institute

# TALKING ABOUT CLIMATE & HEALTH

## Finding Solutions

Coming together in actions that affect both health outcomes and vulnerability to climate change impacts

### ABOUT

This conference will discuss the health effects of climate change in Florida with a focus on climate equity. Non-physician clinicians, specifically nurses and other healthcare providers, as well as students are strongly encouraged to attend and participate alongside our physician participants.

### CONTINUING EDUCATION

This free conference has applied for and is expected to offer ACCME Category 1 CME credits.

### LOCATION

Pasco-Hernando State College  
Porter Campus at Wiregrass Ranch  
2727 Mansfield Blvd.  
Wesley Chapel, FL

### FLORIDA CLINICIANS FOR CLIMATE ACTION (FCCA)

This event will include the launch of the Florida's Clinicians for Climate Action (FCCA) as a coalition of medical associations concerned about the impacts of climate change on Florida residents, especially vulnerable populations.

# SPONSORSHIP LEVELS

---

## PLATINUM

---

\$10K

- Logo on flyer & registration website page as co-sponsor
- Co-sponsorship announced at opening & closing session
- Sponsorship of one session
- Full page ad inside cover of program book
- Exhibitor table

## GOLD

---

\$7K

- Logo on flyer & registration website page as co-sponsor
- Co-sponsorship announced at opening & closing sessions
- Sponsorship of one session
- Full page ad in program book
- Exhibitor table

## SILVER

---

\$5K

- Logo on registration website page
- Sponsor lunch or reception
- ½ page ad in program book
- Exhibit table
- Support listed on website

## BRONZE

---

\$1K

- Listed as supporter on registration website
- 1/4 page ad in program book
- Exhibit table

## EXHIBITOR

---

\$200

- Exhibit table in lobby near registration
