

Focus on Climate Change

Heat **Health** **Hope**

You are invited to hear directly from Dr. Marc Futernick as he speaks about the climate challenges that we face at California Hospital. Climate change is happening all around us, and is impacting our health now. We can take individual and collective action to protect ourselves. Health care plays a critical role - delivering services, controlling our emissions, and educating the public on health precautions and environmental factors.

Friday, December 13, 2019 at Noon

Keck Hall, Leavey Center

320 West 15th Street, Los Angeles, CA 90015
